

Topic: Wireless

Article: Wireless Login Instructions

When you use a laptop that has wireless capabilities, it will automatically look for a connection.

You can also open "Network Connections" in the Control Panel and right-click on your wireless network connection or right-click on your taskbar icon and select "View Available Wireless Networks", click on "Hamline", and then click on "Connect".

Hamline Account Login

A Login screen will appear:

Hamline Network Authentication

Username

Password

Provider Hamline User Accounts ▼

Please provide your Hamline username and password to access this network.

[Guest Access](#) [Help](#)

Use your Hamline login and password:

- For Staff and Faculty, use your Network username and password
- For students, use your Netmail username and password

And hit continue

Connection Status – Hamline Accounts

An additional window will open showing the status of your connection, indicating that your access to the wireless network is unlimited in time:

Hamline Network Authentication

[Logon Information]

You have been successfully logged on the network.

- ♦ <http://comcast.net/>
- ♦ Time Logged on: 10/30/07 14:29:42
- ♦ User Session: unlimited

[Logout Information]

To log yourself off the network, please click on the **logout** button.

(Note: If you have an active VPN session, please remember to disconnect the VPN connection.)

When ready, please disconnect your wireless access by clicking on "Logout" in this screen

Guest Login

If you don't have a Hamline account, you can use the "Guest Access"

You will have 2 hours (120 minutes) of wireless access.

After that time period, the connection drops.

HAMLIN UNIVERSITY
Hamline Network Authentication

Please provide your Hamline username and password to access this network.

Certifications

The first time you login to Hamline Wireless network using this authentication process, you may get pop-up windows asking to confirm internal certifications.

Please just click on OK when prompted to accept the session certificates.

You will not be prompted with those pop-ups in future sessions
