

2010 MnSTEP Programs

MnSTEP offered a selection of its acclaimed elementary science institutes in summer 2010 in the Metro area. Without state or private funding, the cost of the 4-day, standards-based science workshops was \$285. Two graduate credits were also available for an additional \$246.

All institutes offered interactive, collegial, hands-on/minds-on experience with the K-6 science standards!

Elementary Physics Institute – Force and Motion

June 28-July 1, 2010; 8:30-3:30

Hopkins High School

Instructors: Nancy Bresnahan and Pam Schilling

Elementary Earth Science – Earth Materials, Weather, Solar System

July 26-29, 2010; 8:30-3:30

St. Johns University, Collegeville

Instructors: Larry Davis and Pam Schilling

Elementary Chemistry Institute – Properties of Matter

June 21-24; 8:30-3:30

Chaska High School, room R-231

Instructors: Jamie Crannell and Angie Lawrence
