Credit Transfer Information

Use these two tools to check how your credits transfer to Hamline.

Transfer Evaluation System (TES) hamline.edu/tes:

TES includes schools from across the country. It shows how credits transfer to Hamline, including whether they are equivalent to Hamline courses or whether they fulfill a specific Hamline Plan requirement. Select your transfer institution, and you will be able to view every course you have transferred to Hamline. To see more details about a particular course, select “view.” Any Hamline Plan requirements that are met will be listed in the “notes” section at the top. If a course transfers as “[DEPT] TRAN,” for example, “ENG TRAN,” it is possible that the course has not been evaluated for Hamline equivalents. If this is the case, contact transferarticulation@hamline.edu.

Transferology hamline.edu/transferology:

Transferology offers the same information as TES but in a different platform. Before you can begin, you will need to create an account. Transferology allows you to hand-pick classes you have already taken and shows you how they transfer to Hamline. To do this, go to the “Will my courses transfer?” section of the website. Once you have selected your courses, select “Search for Matches” and select Hamline. To see Hamline Plan requirements, click the “i” next to the Hamline equivalent.

Another useful feature of Transferology is the “Find a replacement course” section of the website. Here you can select the Hamline course that you would like to transfer. Once you have chosen that course, Transferology generates a list of all the courses in Minnesota (use the filter to select another state) that will transfer as a direct equivalent to the Hamline course you selected.

If you have any questions concerning TES or Transferology, contact transferarticulation@hamline.edu.

An Introduction to Advising

The academic advising program at Hamline helps you develop and achieve your college and career goals. You may also contact your advisor when personal problems are interfering with academic life or when you wish to discuss life after Hamline—careers or graduate school. Your advisor may not have all the answers, but they can refer you to the appropriate resources or people more knowledgeable about your concerns.

If you are ready to declare your major, you can submit the online declaration form. You will need to be logged into your Hamline Google account to complete the form. You can access the online form at hamline.edu/registrar/forms. The form is sent to the department chair who approves the declaration and determines who your advisor will be. You and the advisor will receive an email confirmation.

If you are undecided about a major, you will be assigned to an advisor in the Center for Academic Success and Achievement (CASA). If you change majors or find that you are working more closely with a different faculty member in your major department, you should change advisors. You may have more than one advisor if you are pursuing more than one major or are involved in certain pre-professional programs (e.g., education, pre-med).

You should meet regularly with your advisor during the academic year. Your first meeting should take place shortly after you arrive at Hamline. After, you should meet during pre-registration Advising Weeks, when your schedule requires revisions, and whenever questions or concerns about your studies or related matters arise. It is your responsibility to arrange your advising meetings. Faculty members at Hamline designate office hours each week.

Contact your advisor during office hours to arrange an appointment. Attend each advising meeting well-prepared. If you are planning to work on your course schedule, bring all necessary materials to the meeting. Be familiar with the class schedule;

Anytime you have a question, your faculty advisor will be there. Your advisor will be your primary resource for advice on courses, majors, curriculum requirements, and other academic matters.

read the “Academic Standards and Policies” and “Graduation Requirements: The Hamline Plan” sections in the *Undergraduate Bulletin* at bulletin.hamline.edu.

Your advisor will expect you to be forming ideas about the courses you wish to take, your major, and your ultimate goals. Think about your academic and personal values and abilities, and be prepared to discuss them during advising meetings.

Your advisor is there to provide information and make suggestions but not to make decisions for you. Your education is your responsibility; academic advising helps you meet that responsibility.

Registration Instructions

Please take time now to read the Academic Standards and Policies section of the *Undergraduate Bulletin*. You may view the *Undergraduate Bulletin* online at bulletin.hamline.edu. Select “Academic Standards and Policies.”

As you read the *Undergraduate Bulletin*, pay close attention to the following key points:

A total of 128 credits (transferred credits plus Hamline credits) are required for graduation, and at least 56 of those credits must be completed in residence at Hamline. Courses taken through the Associated Colleges of the Twin Cities (ACTC) exchange, Hamline study away, and Higher Education Consortium for Urban Affairs (HECUA) programs are counted as residency credits. Full-time students generally earn 32

residency credits per year and can distribute these credits across fall and spring terms at 16 credits per term. Students are allowed to enroll in 12 to 18 credits per term for the same tuition cost and can enroll in up to 20 credits per term for an additional fee. Students can also elect to enroll in a 4-credit winter (J-term) course for an additional fee.

Transfer students must take at least 56 credits at Hamline or within the ACTC consortium to earn a Hamline degree and a minimum of 60 Hamline credits graded on an A–F scale to be eligible for graduation honors (cum laude, magna cum laude, summa cum laude).

1. Determine your degree standing

Hamline Plan requirements

Your transcript lists all of your previous courses that have transferred to Hamline. If a course fulfills one or more Hamline Plan requirements, it will be marked with a code letter. You can find a key to the Hamline Plan letters on page 4.

If any of your courses have not yet been evaluated for Hamline Plan credit or some of your work is not on the transcript, contact your admission counselor for advice.

Major requirements

Course requirements for your major (if you have chosen one) are listed in the *Undergraduate Bulletin* or in Workday.

Credit requirements

Note the total number of transfer credits on your internal transcript. Remember, you will need 128 credits to graduate.

2. Language Placement

If you're thinking of taking Chinese, French, German, or Spanish, it's important that you choose a class at the level that's right for you. First, complete the online language level assessment at hamline.edu/languageplacement. The assessment is free and must be completed before you register for a language class. Note that your score might recommend that you take a course for which you have already received credit. While you may repeat a course as a review, you will not receive credit twice for the same course.

3. Choose your courses

Look at your Academic Advising Worksheet and your major requirement sheet. What Hamline Plan, major, and breadth of study requirements do you have remaining? You should choose courses that will fulfill these outstanding requirements. The courses being offered this term are listed in Hamline's Workday under "find course sections".

As a general rule, you should register for a mix of major and non-major courses. Do not register for Hamline courses that are equivalent to courses you will be transferring. You will not receive credit for repeated courses. If you're not sure if a course is equivalent, call CASA.

Use the timetable on page two of the Academic Advising Worksheet to draft your schedule. This timetable is a worksheet for you to write on as you arrange your schedule and consider possible courses. By using this timetable, you will avoid time conflicts in your schedule. Keep the timetable for your reference.

You must record four first-choice classes and four alternates. For each course chosen, read the description in Workday and write down the eligibility requirements. You may not register for courses if you have not completed the requirements.

Step-by-step course selection

You must complete the new student onboarding steps in Hamline's Workday before you may proceed with these registration steps.

Please have available:

- 1) This booklet
- 2) Hamline's Workday instructional handout included in the registration information
- 3) Academic Advising Worksheet
- 4) Internet access to the following websites: Hamline's Workday

You are now ready to register!

Finally, we strongly recommend that once you register, you call to schedule an individual appointment with CASA. During this appointment, we can review your transfer work, finalize your schedule, and determine a realistic graduation date. Most transfer students find this meeting extremely useful in planning their time at Hamline. Our office is open year-round.

Now is the time for you to begin thinking about possible majors and directions for your life.

Hamline Graduation Requirements for Transfer Students

For further information, see the *Undergraduate Bulletin*.

First-year seminar

Waived for transfer students.

First-year writing (E)

If you did not transfer in a course equivalent to FYW 1120 Composition and Research, you must enroll in FYW 1120 during your first semester at Hamline.

Writing-intensive courses (W)

You choose one writing-intensive course each year at Hamline, one of which must be in your major.

Speaking (oral) intensive (O)

Two courses required.

Courses may be taken at any time; at least one must be completed at Hamline. If you transfer in 64 credits or more, you only need one speaking-intensive course, but it must be taken at Hamline.

Formal reasoning (R) and quantitative reasoning (M)

Two courses or one course that carries both designations.

Disciplinary breadth

Eight courses required.

Two courses each in the fine arts,* humanities, natural sciences (one with lab), and social sciences.

*Note: Eight credits total in the fine arts. If transferring fine arts courses worth fewer than four credits, please contact an academic advisor in CASA.

Diversity (D)

Two courses required.

Through diversity courses, you will engage in intellectual discourse and reflection about and across differences, and you will be able to demonstrate knowledge and understanding of diverse cultures and reflect on your own and others' social identities (gender, race, ethnicity, religion, sexual orientation, dis/ability, class, etc.).

Global citizenship (G)

One course required.

Global citizenship courses equip you to become an informed, open-minded, and socially responsible citizen who seeks to understand how your actions affect both local and global communities and to address the world's most pressing issues collectively and equitably.

Independent critical inquiry and information literacy (Q)

One course required.

Through this category, you will complete a critical inquiry project and integrate multiple perspectives in presenting information.

Collaboration (C)

One course required.

You must complete one course that focuses on developing and strengthening collaborative skills by engaging with team-based processes.

Liberal Education as Practice (LEAP)

One course or registered experience required.

The LEAP requirement provides you with hands-on experiences to connect your academic skill set with the world of work. LEAP experiences include internships, collaborative research projects, and courses including community-based experiential components. You are encouraged to participate in LEAP experiences in your major and to engage in more than one LEAP experience during your Hamline career.

Breadth of study

48 credits completed outside of your major department.

Major

A field of concentration, ranging from 8 to 17 courses, depending on program requirements. At least 16 credits in your major must be completed at Hamline. Major requirements can be found in the *Undergraduate Bulletin*, or at hamline.edu/ugrequirements.

Please note that indicating an intended major on your registration form does not constitute formal declaration of your major.

Credit requirements

All Hamline students are required to complete a minimum of 128 credits to graduate (see the *Undergraduate Bulletin* for details).

Center for
**ACADEMIC SUCCESS
AND ACHIEVEMENT**
HAMLINE UNIVERSITY

Hamline Mission

To create a diverse and collaborative community of learners dedicated to the development of students' knowledge, values, and skills for successful lives of leadership, scholarship, and service.

Hamline Vision

Hamline University will be recognized as a diverse, learning-centered university that is:

- Rooted in a tradition of liberal education.
- Dynamic and actively inclusive.
- Locally engaged and globally connected.
- Invested in the personal and professional growth of persons.

Academic Integrity

Hamline University students are expected to comply with the legal and ethical standards of the university. Dishonesty of any kind in relation to academic work threatens the integrity of the academic enterprise and is prohibited and subject to disciplinary action by the university. Such dishonesty includes cheating on examinations, plagiarism, ghostwriting, and falsifying official information requested by the university concerning one's academic background or status.

Hamline University's student conduct policies are detailed at hamline.edu/policies.
