Finding things out that you didn't know you wanted to know – The TED Radio Hour

Explore the deeply puzzling, the endlessly fascinating, and the wild and weird things that make the world go round as we dig into unusual and interesting topics with The TED Radio Hour podcast. Our goal is to hear how scientists, thinkers, leaders, and ordinary people make connections and come to extraordinary conclusions about topics you didn't even know you wanted to hear about until you got a chance to hear them. We will examine issues of science, psychology, social justice, and why people do the things they do, and we'll come up with... well, we shall see what we come up with as we go along.
