* This figure includes those student teachers who have not yet become licensed

**2 of the 5-8 science licenses were earned along with a 9-12 science, so totals will be inaccurate

NOTE: 4 student teachers from these 2 cohorts have not yet applied for their license as of July 10, 2018

This data does not account for the following:

- Student teachers who chose to not seek teacher positions for personal reasons
- Student teachers who moved out of state
- Student teachers who are teaching in private (non-charter) schools which do not report employment data to PELSB
