

My name is Jacob Hanson [He/Him], and I'm thrilled to be your RA this semester! I'm really looking forward to getting to know all of you and creating a positive and welcoming living environment for everyone. I'm here to support you, so please don't hesitate to reach out if you need anything at all—whether it's academic advice, a friendly chat, or just some help navigating campus life.

A little about me: I am a sophomore from Southern Wisconsin majoring in Computational Data Science. On campus, I am involved in clubs, the theatre department and dance ensemble. Outside of Hamline, I am an avid longboarder, musician, video game enthusiast, and I dabble in tabletop and card games.

As we move into campus life, I would recommend participating in as many activities as possible, and branch out to meet new people. Hamline's events are super enjoyable, and new/returning students can be very relatable. These events are key to meeting new people and feeling comfortable on campus.

Two last notes before I leave the rest up to you. First, connecting with your roommate(s) is super important. Aim for a strong relationship, but even a decent connection will make a big difference as you start the school year! Second, don't forget to finish your packing list! Delegate tasks with your roommate if needed to ensure you're fully prepared.

Feel free to reach out to myself or any other contacts you have at Hamline with any general questions or looking to connect!
