With a Gifted Education Certificate from Hamline, you will:

- Learn to identify gifted and talented students among all learners using current research-based information.
- Understand research-based instructional strategies to effectively differentiate curriculum for talented students.
- Develop the ability to recognize the affective needs specific to gifted and talented students, including the causes of underachievement.
- Discover new research-based inquiry strategies to challenge talented learners.
- Explore new program models grounded in research for adaptation to your classroom or district.
